# DEDAN KIMATHI UNIVERSITY OF TECHNOLOGY 

UNIVERSITY EXAMINATION 2020

## MODULE I \& II EXAMINATION FOR THE DIPLOMA IN BUILDING TECHNOLOGY

## TBT0112 SURVEYING I

DATE: April 2020
TIME: 2HOURS

## Instructions: ATTEMPT QUESTION ONE AND ANY OTHER TWO QUESTIONS

## QUESTION 1 [30 Marks]

a) Explain 2 advantages of electromagnetic distance measurement as compared to traditional chain surveying. (4 marks)
b) State five functions performed by a total station.
c) Discuss the role of surveying in the construction industry.
d) Table 1 below show results from a closed leveling fieldwork. Fill the table and reduce the levels. Check the levels and adjust the error(s) if any appropriately. (10 marks)

Table 1

| BS | IS | FS | Rise | Fall | Reduced <br> Level | Remarks |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| 1.944 |  |  |  |  | 452.000 | BM 1 |
|  | 1.691 |  |  |  |  | O m |
|  | 2.009 |  |  |  |  | 20 m |
| 0.367 |  | 2.842 |  |  |  | 40 m |
|  | 1.223 |  |  |  |  | 60 m |
|  | 1.347 |  |  |  |  | 80 m |
| 2.114 |  | 0.775 |  |  |  | 100 m |
|  |  | 0.816 |  |  |  | BM 1 |

e) Given the following horizontal angles observed from a link traverse, calculate the corresponding whole circle bearings (WCB) for the lines B-E1, E1-E2, E2-E3, E3E4, E4-C, and C - D.

| Stns | Observed angles | Line | $\begin{gathered} \text { WCB } \\ \circ \end{gathered}$ |
| :---: | :---: | :---: | :---: |
| A |  | $A$ - $B$ | 1512738 |
| B | 1435447 | $B-E 1$ |  |
| E1 | 1490811 | E1-E2 |  |
| E2 | 2240732 | E2-E3 |  |
| E3 | 1572153 | E3-E4 |  |
| E4 | 1670515 | E4-C |  |
| C | 743248 | $C-D$ |  |

## QUESTION 2

a) Describe the following types of survey stations:
(3 marks)
i. Main stations
ii. Subsidiary or tie stations
b) Differentiate between polar and join computations.
(4 marks)
c) The following are notes from a closed traverse survey of an abandoned quarry. Compute the traverse station coordinates of stations (B, C, D and E) given the coordinates of point A as (Northings=1000 m, Eastings=2000 m). (8 marks)

| Line | Horizontal length (m) | Whole Circle Bearing |
| :--- | :--- | :--- |
| $\frac{\text { At station A }}{\mathrm{B}}$ | 120 | $9^{\circ} 12^{\prime}$ |
| $\frac{\text { At station B }}{\mathrm{C}}$ | 240 | $127^{\circ} 30^{\prime}$ |
| $\frac{\text { At station C }}{\mathrm{D}}$ | 360 | $185^{\circ} 40^{\prime}$ |
| $\frac{\text { At station D }}{\mathrm{E}}$ | 420 | $258^{\circ} 20^{\prime}$ |

## QUESTION 3

[15 Marks]
a) Using an illustration, differentiate between Geographic coordinate system and Plane rectangular coordinate system. (2 marks)
b) Differentiate between Gross, Systematic and Random errors in surveying measurements. (3 marks)
c) An open traverse with points A, B, C, D, E was carried out and closed at A (known station). Calculate the linear departures, latitudes and the linear misclosure and relative precision of the traverse. Balance the departures and latitudes using the Bowditch (compass) rule given that the coordinates of A are $10,000.00 \mathrm{~m}$ and $5,000.00 \mathrm{~m}$ Easting and Northing respectively.
(10 marks)

| Station | Preliminary azimuths | Length (m) |
| :--- | :--- | :--- |
| A | $126^{\circ} 55^{\prime} 17^{\prime \prime}$ | 647.25 |
| B | $178^{\circ} 18^{\prime} 58^{\prime \prime}$ | 203.03 |
| C | $153^{\circ} 1^{\prime} 54^{\prime \prime}$ | 720.35 |
| D | $284^{\circ} 35^{\prime} 20^{\prime \prime}$ | 610.24 |
| E | $206^{\circ} 09^{\prime} 42^{\prime \prime}$ | 285.13 |

## QUESTION 4

[15 Marks]
a) Differentiate between Traversing and Resection methods of fixing positions in the horizontal planes. ( $\mathbf{2}$ marks)
b) Using appropriate illustrations, differentiate between the following kinds of horizontal angles most commonly measured in surveying.
(5 marks)
i) Interior angles.
ii) Angles to the right.
iii) Deflection angles.
iv) Bearing
v) Azimuth
c) Explain four general phases of a topographical survey.

## QUESTION 5

[15 Marks]
a) Define the term "level datum".
(1 mark)
b) Describe the following methods of levelling:
i. Differential levelling
ii. Reciprocal levelling
iii. Trigonometric levelling
c) Explain four uses of Levelling.
